

Leadership Delegations

A Leadership Delegation is an educational travel experience designed for school leaders to see education in action. It offers a unique opportunity to risk assess your future student trips, whilst drawing inspiration for school improvement through first-hand school immersion.

During the visit, school leaders will have the opportunity to meet with potential partner schools and establish transformational, meaningful partnerships.

The delegation includes:

- Visiting our partner schools
- Meeting local education professionals
- Professional networking with fellow delegates
- Attending local roundtable sessions
- Risk assessments for future trips
- Sightseeing and cultural experiences
